

# Support with answering the ESF questions – Children’s Homes

This guidance will be updated regularly in the light of feedback and experience.

**NB – This children’s homes guidance is based almost entirely on the ASC guidance but with additional prompts and supporting resources specific to children’s services highlighted in the table below.**

**REMEMBER:** the main way we will gather information from providers is in our conversations with them when working through the monitoring and engagement tool. **Requests for information and documents will always be exceptional.**

## Planning

Check the information we already hold about services when completing the ESF planning tool (e.g. whistleblowing information stored in CRM). Also consider information from external sources, such as other stakeholder organisations and professionals.

## When using the ESF Tool

Always remember that the primary way to answer the questions is through conversation with the provider. The table below shows the ESF questions, together with supportive conversation prompts, for discussing them with ASC providers, and sources of support that may be able help them if they are experiencing difficulties.

Please note, in particular, Skills for Care’s support offer to registered managers. Managers can find out more about it at these links and phone numbers:

## 2. Staffing arrangements

2.1 Were there enough suitable staff to provide safe care and treatment in a dignified and respectful way during the COVID-19 pandemic?

- If the pandemic has affected your ability to staff the service, what action have you taken to manage this?
- Have you been able to make sure that people get care and support from workers with the right knowledge and skills?
  - (Including the ability to support children who are currently not accessing an education setting)
- How is the setting supporting the health and care needs usually provided by external agencies?
- How are you making sure that new staff and any volunteers have been safely recruited and appropriately inducted?
- How are you ensuring that staff are still able to work in a way that respects and maintains people's dignity?
- How are you proactively supporting staff who may be at increased risk of getting COVID-19 (including: Black, Asian and Minority Ethnic (BAME) colleagues, older colleagues, pregnant women, returnees, people with underlying health conditions)?

2.2 Were there realistic and workable plans for managing staffing levels if the pandemic leads to shortfalls and emergencies?

- Do you have plans for responding to unforeseen and critical staff shortages?
- How would you escalate concerns if you were unable to provide a safe service?
- Have you engaged with local system arrangements and agreements for staff sharing and other contingencies?
  - Do you have confidence in the arrangements?
  - If you've used them, are they proving effective?
  - How have you engaged with the local authority and / or other partners as part of the risk assessment to ensure that adequate arrangements are in place to support children with Education, Health & Care Plans?

### 3. Protection from abuse

- 3.1 Were people using the service being protected from abuse, neglect and discrimination?**
- How are you managing restrictions that might deprive people of their liberty? (Note: not just relating to managing COVID-19)
  - How do you ensure that people's diversity and human rights are recognised and respected?
  - Has the pandemic affected your ability to protect people?
  - How have you enabled people to stay in contact with family and friends? (methods, frequency.)
